elan™

Always Good Times®

Good times are what Elan is all about, and the best times are those spent with friends and family in the mountains. Whether it's a family weekend road trip to your favorite local destination or a backcountry adventure with your best friends, it's always good times when you surround yourself with the people, you're closest to.

Elan apparel

Elan skis are handcrafted in the Slovenian Alps, and the Elan brand has been about spending quality time with friends and family in the mountains, since 1945. Whether you're skiing or enjoying other active leisure time, Elan apparel is designed to inspire you to enjoy good times and create new memories, with those you love.

Our apparel collection is designed to make you feel good – whether on the snow or in everyday life. The materials, the cut, the small details, everything has been created to offer high quality, modern design, performance, and comfort.

Look good, feel good and spread the spirit of Always Good Times with us.

Ski collection

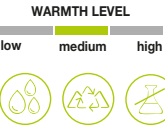

Elan ski apparel is created for skiing and ski touring, offering performance, comfort, and style. For decades our goal has been to make the ski experience better for everyone, with a long history in ski innovation, and we bring this approach to our ski apparel too. Our garments use the best materials, offer the best fit, and means you can ski all day long feeling great.

Down jackets

FILL POWER

Fill power is a number that measures the fluffiness and quality of a down product. Higher fill power means the down will have better quality, higher loft, and will retain its firmness longer. This is because higher fill power means the down can trap more air which allows for greater insulation.

DOWN INSULATION ELAN ROSE W / BLACK W / WHITE W

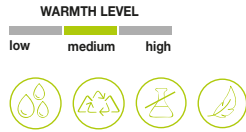

CODE_ PTSK3724 (Rose), PTSK3924 (Black), PTSK3824 (White)

GARMENT FEATURES

ORGANIC COTTON

This garment is sustainably sourced from seed to finished product, through environmentally and socially responsible manufacturing.

RECYCLED FIBRES

The fibres of this fabric or padding came from recycled sources. This way, we contribute to climate neutrality and a greener future.

WATTER REPELLENT

The fabric of this garment has a water repellent treatment, which allows water to slide over its surface without penetrating.

4 WAY STRETCH

This garment is designed with a four-way stretch fabric, for adapting to the shape of the body and offering largest variety of motion for the wearer.

WOOL

This garment contains wool blend fabric or padding. It has a high thermal and body temperature regulating power thanks to the moisture absorbing capacity of wool fibres. It is a lightweight and comfortable material that protects the body from low temperatures.

DOWN

This garment is padded with down. It contains goose down filling, that offers excellent performance in terms of insulation, breathability, and overall comfort.

LEATHER

This item is manufactured with soft genuine leather.

PFC FREE

This garment is made from a PFC FREE fabric, treated without the use of chemical pollutants containing fluorine, which are harmful to the environment and dangerous to human and animal health.
