

OUTDOOR COLLECTION 2027

MASTERING MOVEMENT. FOLLOWING YOUR HEART.

Created for the modern outdoor enthusiast, this collection balances performance, agility, and lasting durability with a refined, contemporary design. Ergonomics are thoughtfully engineered to follow the natural movement of the foot - so every step feels effortless, controlled and guided by your heart.

The collection reflects Alpina's legacy of footwear mastery, where a deep understanding of how the foot moves naturally is combined with innovative construction and carefully selected advanced materials. Shaped by our genuine passion for the outdoors, every pair brings these elements together in perfect harmony.

1

Strong grip for fast movement on varied terrain.

TRAIL**2**

perfected.

ALPINA TRAIL

MADEIRA 3.0 TEX

VARIOUS COLORS: WOMEN | MEN

LIGHTWEIGHT PERFORMANCE WITH WEATHER PROTECTION

Madeira 3.0 Tex is designed for active explorers who don't stop when conditions change. Built as a lightweight, premium trail shoe, it combines advanced weather protection with precise fit and lasting comfort. Whether you're heading into the damp forest trails or unpredictable terrain, it keeps your movement light, protected, and controlled from start to finish.

STAY DRY, MOVE LIGHT, GO FURTHER

STORM Rubber Outsole

High-traction outsole provides reliable grip and stability on wet, uneven, and mixed terrain.

Sympatex® membrane

Advanced waterproof membrane keeps water out, allowing moisture to escape, ensuring comfortable feet in humid conditions.

Precision lacing system

Integrated lacing ensures a secure, personalized fit that stays consistent throughout movement.

Ortholite® Insole

Long-lasting cushioning, moisture management, and all-day freshness.

FROM TRAILS TO EVERYDAY MOVEMENT - COMFORT YOU CAN TRUST

From wet forest paths to everyday outdoor use, Madeira 3.0 Tex delivers dependable performance in unpredictable conditions. High quality materials and superb construction keep your feet dry in rain and damp terrain while maintaining breathability, allowing heat and moisture to escape during active movement. Combined with reliable grip and lasting comfort, this shoe is a premium choice for those who expect high performing footwear.

The shoe's lightweight yet technical construction delivers a precise and supportive fit. The lacing system adapts to your foot, holding it securely in place, while the overall structure provides stability — ideal for longer walks and changing terrain.

ALPINA TRAIL

MADEIRA 3.0

VARIOUS COLORS: WOMEN | MEN

MADE FOR MODERATE TRAILS, GRAVEL PATHS, AND EVERYDAY

Madeira 3.0 is built for those who want comfort, lightness, and reliable support in every step. Designed for light hiking trails, hills, forests and everyday outdoor movement, it delivers a superb balance of breathability, stability, and cushioning. Whether you're starting your trail journey or enjoying active weekends, Madeira 3.0 keeps your movement dynamic, stable, and comfortable all day long.

ADAPTABLE FIT AND RELIABLE GRIP

STORM Rubber Outsole

4 mm lugs and elevated midfoot rubber deliver grip, stability, and traction on sand, rock, mud, and off-road surfaces.

Breathable Mesh Upper

Transparent, highly breathable construction keeps feet cool and comfortable during long wear.

Enhanced lacing system

Integrated straps connected to the sole provide a secure, personalized fit and improved stability.

Ortholite® Insole

Lasting comfort, moisture-wicking, and odor control.

WALKING EXPERIENCE

FROM TRAILS TO EVERYDAY MOVEMENT - COMFORT YOU CAN TRUST

Madeira 3.0 transitions effortlessly from light hikes and forest trails to everyday activities. Its lightweight construction supports natural movement and helps reduce fatigue, while breathable materials keep your feet cool. A soft lining with foam padding around the ankle ensures easy entry and lasting all-day comfort.

Designed to adapt to your foot, Madeira 3.0 features an ergonomic shape and an enhanced lacing system for a precise, supportive fit. The construction helps reduce pressure points for improved comfort, while reinforced heel and toe areas provide protection where it matters most. With reliable grip, stable support, and breathable comfort, it's an ideal choice for weekend hikers, beginners, and anyone who enjoys staying active outdoors.

ALPINA TRAIL

OBSIDIAN PRO

VARIOUS COLORS: WOMEN | MEN

DESIGNED TO GIVE YOU CONFIDENCE IN TOUGH CONDITIONS

Obsidian Pro is built for hikers who want lightweight agility, waterproof protection, and confident grip. Designed for light to moderate trails, alpine paths, and winter conditions, the shoe combines durable materials with advanced cushioning and traction technologies. Whether you are moving quickly on mountain terrain, exploring forest trails, or heading out for a winter hike, Obsidian Pro keeps you comfortable all day long.

MOVE FASTER WITH LIGHTWEIGHT STABILITY

STORM outsole

Robust outsole design ensures reliable grip, stable movement, and lasting comfort on diverse surfaces.

Elite Gaiter

High-elastic technical material covers the speed lacing system, providing excellent protection against cold and moisture.

Sympatex® Membrane

A waterproof membrane maintains a dry and balanced foot climate in wet or cold conditions.

Ortholite® Insole

Ensures lasting, fresh and dry comfort.

ALPINA'S XC PERFORMANCE DNA, ADAPTED FOR DEMANDING OUTDOOR USE

Built for winter sports team trainers, athletes, and demanding outdoor users, Obsidian Pro combines lightweight agility with reliable grip for challenging environments. Whether training on snowy trails, moving quickly across wet terrain, or hiking alpine paths in harsh weather, the shoe delivers confident traction and dependable performance when conditions get tough.

The integrated gaiter and advanced sole construction add an extra layer of protection in unpredictable environments. They shield the foot from snow, water, and debris while preserving the responsive feel and dynamic movement inspired by Alpina's cross-country performance heritage.

ALPINA TRAIL

ONYX

VARIOUS COLORS: WOMEN | MEN

LIGHT AND FAST PERFORMANCE FOR VERSATILE HIKING

Light, stable, and weather-ready, Onyx combines strong traction, advanced cushioning, and durable materials for dependable trail performance. Designed for gravel paths, forest trails, and rolling hills, it keeps you moving with confidence. Delivering reliable grip, long-lasting comfort, protective durability, and waterproof performance, Onyx ensures every step feels stable, supported, and ready for adventure.

SMOOTH MOVEMENT ALL DAY LONG

High-Abrasion Ripstop Upper

High-performance ripstop material, combined with faux suede and cushioning, ensures durability, protection, and a precise fit.

STORM rubber outsole

The 4 mm lugs increase traction and stability, while the elevated rubber enhances control on uneven surfaces.

Sympatex® Membrane

ULTRA
Light

DESIGNED FOR MODERATE TRAILS, GRAVEL PATHS, AND MIXED TERRAINS

Onyx keeps your feet protected from both the elements and the terrain. Its abrasion-resistant ripstop upper prevents small tears from spreading, ensuring long-lasting durability. The reinforced heel and toe zones guard your feet from rocks, roots, and trail impacts. An 8 mm heel drop promotes an efficient heel-to-toe transition with a comfortable, natural stride.

Ideal for fast day hikes and long active days, perfect for users seeking lightweight performance, stability, and an energetic, personalized fit that comes with style. Whether walking, casual hiking, or covering longer daily distances, Onyx keeps every step energetic and steady.

ALPINA HIKING & TREKKING

OBSIDIAN CLASSIC

LOW AND HIGH | WOMEN AND MEN

BUILT TO PERFORM ON FOR LONG TRAILS AND TOUGH TERRAIN

Obsidian Classic is designed for hikers who value dependable protection, lasting comfort, and confident stability on demanding trails. Ideal for mountain paths, mixed terrain, and long weekend hikes, the shoe combines robust construction with reliable cushioning and grip. Whether trekking rocky routes, climbing forest trails, or carrying a heavy pack over long distances, Obsidian Classic helps you move forward.

MOVE FURTHER WITH DURABLE STABILITY

Innovative STORM Sole

FloatCM midsole with CMEVA foam delivers light, stable cushioning, while the durable outsole ensures reliable grip and comfort on varied surfaces.

Ortholite® Insole

Ortholite® sympatex®

MODERN HIKING PERFORMANCE WITH TIMELESS STYLE

Obsidian Classic is designed for younger outdoor enthusiasts and style-conscious hikers who want performance with a clean, modern hiking look. Its balanced design blends dependable trekking functionality with a contemporary silhouette suited for both mountain trails and weekend adventures.

The shoe follows natural foot movement to support steady, balanced steps on long trails. The mid-cut version adds ankle support and stability for longer treks, while the low-cut option offers a lighter feel for faster hiking. Details such as the FlexGuard collar help keep dirt and pebbles out, and the reinforced heel and toe areas protect the foot against impact and rough terrain.

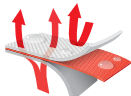

ALPINA HIKING & TREKKING

HELIOS

**4DRY TECHNOLOGY FOR
ALL-SEASON BREATHABILITY**

TIMELESS LEATHER STRENGTH FOR DEMANDING TRAILS

Helios is built for hikers who trust in proven materials and timeless construction. Combining premium leather, reliable protection, and modern updates, it delivers comfort, durability, and confidence for long walks and mountain adventures. Designed for all-season use, Helios supports every step with stability, breathability, and a secure fit.

CONFIDENT GRIP AND SUPERB STABILITY

Nubuk 20-22 mm leather upper

Water-repellent nubuck leather ensures durability, stability, and long-lasting protection in demanding conditions.

Sympatex® Membrane

Provides waterproof protection while maintaining breathability for lasting comfort in changing environments.

TRADITIONAL DURABILITY WITH MODERN PERFORMANCE

Comfort that adapts to your foot. Premium nubuck leather naturally adjusts to the shape of your foot over time, creating a personalized fit. The VCP (Volume Control Plate) allows precise volume adjustment, ensuring a secure, comfortable feel that adapts to different needs and conditions. Helios is the ideal choice for classic hiking enthusiasts and leather lovers who value traditional craftsmanship, dependable protection, and lasting durability on varied terrain.

Reliable performance across seasons and terrain. The Sympatex® lining keeps feet dry while allowing moisture to escape, maintaining a balanced internal climate. Combined with a durable Vibram® outsole, Helios ensures stable footing and confident movement across changing outdoor conditions.

ALPINA HIKING & TREKKING

HORIZON

VARIOUS MODELS: MID | LOW

GO FURTHER, FEEL LIGHTER WITH EVERY STEP YOU TAKE

Horizon is designed for men who seek comfort, reliability, and freedom of movement in every step. Whether you're heading onto forest trails, gravel paths, or simply navigating everyday terrain, it delivers a balanced blend of lightness, stability, and protection. Built to support natural movement while providing lasting comfort, Horizon keeps you moving confidently—no matter the distance, pace, or conditions.

RELIABLE AND AGILE PERFORMANCE

Alpitex membrane

Keeps feet dry while allowing moisture to escape, ensuring comfort in changing weather.

Superb split leather upper

Durable and flexible leather (1.6–1.8 mm) adapts to the foot and provides lasting comfort outdoors.

FROM FOREST TRAILS TO DAILY ROUTES - COMFORT IN EVERY STEP

Designed for versatility, Horizon adapts easily from outdoor trails to everyday use. Its balanced construction, durable materials, and all-day comfort make it a reliable choice for a wide range of activities. The Strobel bootie construction gives Horizon a softer, more flexible structure that follows the natural movement of your foot. This reduces stiffness, improves comfort, and creates a smoother, more effortless walking experience—especially over longer distances and varied terrain.

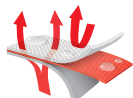

Horizon is available in both low and mid-cut versions to match different needs. The low model is ideal for lighter hikes, walking, and less demanding trails, offering freedom and ease of movement. The mid-cut version adds extra ankle support and stability, providing greater security and confidence on more uneven or challenging terrain.

ALPINA HIKING & TREKKING

IRIS

**4DRY TECHNOLOGY FOR
ALL-SEASON BREATHABILITY**

TIMELESS LEATHER STRENGTH FOR DEMANDING TRAILS

Iris is a classic leather hiking boot designed specifically for women who value stability, comfort, and trusted performance. Combining premium materials with a women-specific fit, it delivers reliable support and protection on long walks and mountain hikes. Made for all-season use, Iris keeps every step secure, comfortable, and energetic.

CONFIDENT GRIP AND SUPERB STABILITY

Nepal suede leather upper

Water-repellent leather (2.0–2.2 mm) provides durable protection and a supportive structure adapted to women hikers.

Sympatex® membrane

Ensures waterproof protection while allowing breathability, keeping feet dry and comfortable in changing conditions.

Volume Control Plate (VPC)

Enables precise adjustment of internal volume for a secure, personalized fit.

Vibram® outsole

Delivers dependable traction and stability on varied terrain, from forest paths to mountain trails.

RELIABLE PERFORMANCE ACROSS SEASONS AND TERRAIN

Iris is built for mountain hikes, long walks, and year-round outdoor use, offering dependable protection and lasting durability for women who value classic leather footwear on varied terrain. The Vibram® outsole adds reliable grip and stability, ensuring confident movement on rocky, uneven, and slippery surfaces.

Dry, balanced comfort in any weather. The Sympatex® lining keeps feet dry while allowing moisture to escape, maintaining a comfortable internal climate. 4DRY technology further enhances breathability, keeping your feet fresh and comfortable throughout the day in any season.

ALPINA HIKING & TREKKING

AURORA

VARIOUS MODELS: MID | LOW

LIGHTWEIGHT AND COMFORT-DRIVEN PERFORMANCE

Aurora is created for women who value lightness, comfort, and ease of movement on every walk. Whether you're exploring forest paths, heading out on light hikes, or staying active throughout the day, it offers a smooth balance of flexibility, protection, and support. Built for natural motion and lasting comfort, Aurora keeps you moving with ease and joy.

FREEDOM IN EVERY STEP YOU TAKE

Reliable 1.6-1.8 mm leather upper

Durable yet flexible split leather adapts to the foot while providing long-lasting protection and comfort outdoors.

Alpitem membrane

Keeps feet dry in wet conditions while allowing moisture to escape for consistent comfort.

FROM FOREST TRAILS TO DAILY ROUTES - ENERGY IN EVERY STEP

The Strobel construction gives Aurora a softer, more flexible structure that adapts naturally to your foot. This enhances comfort, reduces stiffness, and creates a smooth, easy walking experience - ideal for relaxed hikes and everyday activity.

Aurora is available in both low and mid-cut versions to match different needs. The low model is ideal for walking and lighter trails, offering greater freedom of movement and a lighter feel. The mid-cut version provides additional ankle support and stability, giving you more confidence on uneven ground and longer outdoor walks. Either low or mid, Aurora is a reliable companion for women who want to stay active, comfortable, and free to move.

ALPINA HIKING & TREKKING

TIBET

VARIOUS MODELS: WOMEN | MEN

RELY ON A LEGEND THAT GOES ANYWHERE

The Alpina Tibet is Alpina's legendary hiking boot, a trusted classic designed for hikers who need a versatile, multipurpose shoe that lasts. Built from premium materials and proven technologies, it delivers dependable protection, stable support, and lasting comfort on mountain trails, forest paths, and everyday outdoor adventures. Wherever the trail leads, this iconic Alpina shoe is built to go the distance.

PROVEN HIKING TECHNOLOGIES FOR ALL-SEASON PERFORMANCE

The sole is designed to give you confident grip and lasting walking comfort. The Vibram® XS Trek Compound enables reliable traction on varied terrain, while the PU midsole absorbs impact and supports comfortable movement over long distances.

The durable upper is built to protect your feet in demanding outdoor conditions. Premium 2.6 mm Nubuck leather resists abrasion and adapts naturally to the foot, while the waterproof Sympatex® membrane keeps rain and moisture out.

The construction is designed to support stable and efficient walking and to the stability and natural movement. FlexZone allows the boot to move naturally with the foot, the integrated shank stabilizes steps on uneven terrain, and the Volume Control Plate enables precise fit adjustment for secure, comfortable hiking.

ALPINA HIKING & TREKKING

TUNDRA

MADE FOR HIKERS WHO VALUE STABILITY AND RELIABILITY

Tundra is a mid-cut trekking boot built for hiking in lower mountain regions and varied terrain. Designed for durability, grip, and ankle support, it provides the stability needed for rocky trails, forest paths, and longer mountain walks. Robust materials and a stable sole construction ensure confident footing and lasting comfort in changing weather conditions.

DURABLE SUPPORT FOR CONFIDENT HIKING

Premium Nubuck Leather Upper

The 2.0–2.2 mm nubuck leather provides exceptional durability and abrasion resistance.

**STRONG ANKLE SUPPORT

VARIOUS MODELS: WOMEN | MEN

RELIABLE COMPANION FOR EXPERIENCED HIKERS AND OUTDOOR ENTHUSIASTS

Tundra combines strong materials, protective design, and reliable construction to deliver a dependable trekking boot for lower mountain adventures in all seasons. High quality 2.0–2.2 mm nubuck leather provides long-lasting resistance to abrasion and wear, while the Alpitex waterproof membrane protects against moisture and keeps feet dry.

Sole built for secure footing on varied terrain. The robust rubber outsole delivers reliable grip on slippery, rocky, or forest surfaces, while the supportive sole structure improves stability with every step. The mid-cut design stabilizes the ankle and helps reduce the risk of twisting, providing confidence on steep climbs and long hikes across uneven terrain.

Uncompromised comfort,
wherever you go.

ALPINA APPROACH

JOY 2.0

PRECISION, GRIP, AND COMFORT IN EVERY STEP

Joy is built for outdoor enthusiasts who need precision, grip, and lasting comfort on demanding terrain. Every element of the shoe is carefully engineered to balance lightweight agility with strong structural support, allowing natural movement without sacrificing protection or durability. Premium materials and advanced technologies create a shoe that adapts to your foot and grips confidently on technical ground.

HIGH-PERFORMANCE ON TOUGH TERRAIN

Premium Split Leather Upper

Breathable 1.6-1.8 mm Perwanger leather combined with lightweight textile ensures durability, breathability, and reduced weight for warm-weather hiking.

Vibram® Megagrip Outsole

High-performance rubber delivers exceptional traction and stability.

Die-Cut EVA Midsole Construction

Lightweight EVA cushioning absorbs shock and improves walking comfort while reducing overall shoe weight.

ULTRA
Light

A TRUE CROSSOVER SHOE FOR MODERN CITY & NATURE EXPLORERS

STORM sole is the modern foundation of the shoe. Its 4 mm lugs ensure reliable traction on sand, trail, rock, and mud, while the FloatCM midsole delivers lightweight cushioning and shock absorption. A light rocker design promotes a smooth, natural heel-to-toe transition for long days of movement.

The entire design is focused on premium comfort. Nubuck leather adapts naturally to your foot, while the Ortholite® insole and breathable Sympatex® membrane keep feet dry, fresh, and comfortable all day long. The balanced construction combines supportive structure with lightweight materials, allowing confident steps on uneven terrain and remaining comfortable for everyday city wear.
