elan™

Always Good Times®

Good times are what Elan is all about, and the best times are those spent with friends and family in the mountains. Whether it's a family weekend road trip to your favorite local destination or a backcountry adventure with your best friends, it's always good times when you surround yourself with the people you're closest to.

Fibers

Acrylic fibers is soft, warm, lightweight, machine washable, fast drying and long wearing. It resists shrinkage, sagging and stretching. It does not itch, it is excellent for cushioned products and has high wicking properties.

Polyamide - Nylon is a thermoplastic silky material. It is the first successful polymer and the first synthetic fiber to be made entirely from coal, water and air. Characteristics of polyamide - Nylon are durability, softness, high elongation and excellent abrasion resistance.

Merino Wool Blend features natural insulating properties making it ideal for use at almost every temperature. Able to absorb 30% of its own weight before feeling damp, Merino Wool will keep your feet dry, warm and comfortable.

Phoenix Yarns are a new recycled and environmentally friendly yarns. They are soft with a silky touch and make your feet comfortable and cozy in all levels of activity.
